

Create An Account In Sendgrid

The screenshot shows the SendGrid dashboard interface. At the top, a navigation bar contains the URL `app.sendgrid.com/guide?from=profile&integrate=true`. A left sidebar lists various dashboard sections: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS (marked as new). The main content area is titled "Welcome, VIDHYA SRI!" and includes a sub-header "Send your first emails with Twilio SendGrid". Below this, a section titled "Create a sender identity" explains the process of setting up a sender identity, with a button "Create a Single Sender" and a link "Authenticate a domain instead". To the right, a diagram illustrates the sender identity concept, showing an email header with "Your Business" as the sender and "jane.doe@your_business.com" as the recipient. A bottom section titled "Send your first email" contains a message: "Please create a sender identity before sending your first email." The dashboard also features a "REPUTATION" bar at 100% and a "VIEW ACCOUNT USAGE" link. The bottom of the image shows a Windows taskbar with the date and time as 08:13 PM on 05-11-2022.

VIEW ACCOUNT USAGE

Welcome, VIDHYA SRI!

To get up and running quickly, please follow the steps outlined below.

Send your first emails with Twilio SendGrid

Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

[Create a Single Sender](#) [Authenticate a domain instead](#)

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.

Your Business `jane.doe@your_business.com`

Send your first email

Please create a sender identity before sending your first email.
